The Journal of Technology and Business

(sponsored by NPU, Silicon Valley)

Introduction

Research not only bridges the gap between knowledge and experience but has the benefit of laying the groundwork for career exploration and development. The opportunity for the graduates to participate in research workshops and journals is an added value to the overall education experience and to the process of career development.

The Journal of Technology and Business, sponsored by Northwestern Polytechnic University (NPU), is published once a year. It is committed to high-quality research papers, technical reports, and practical applications in technology and business areas
